Class: \_\_\_\_\_

## Big and little

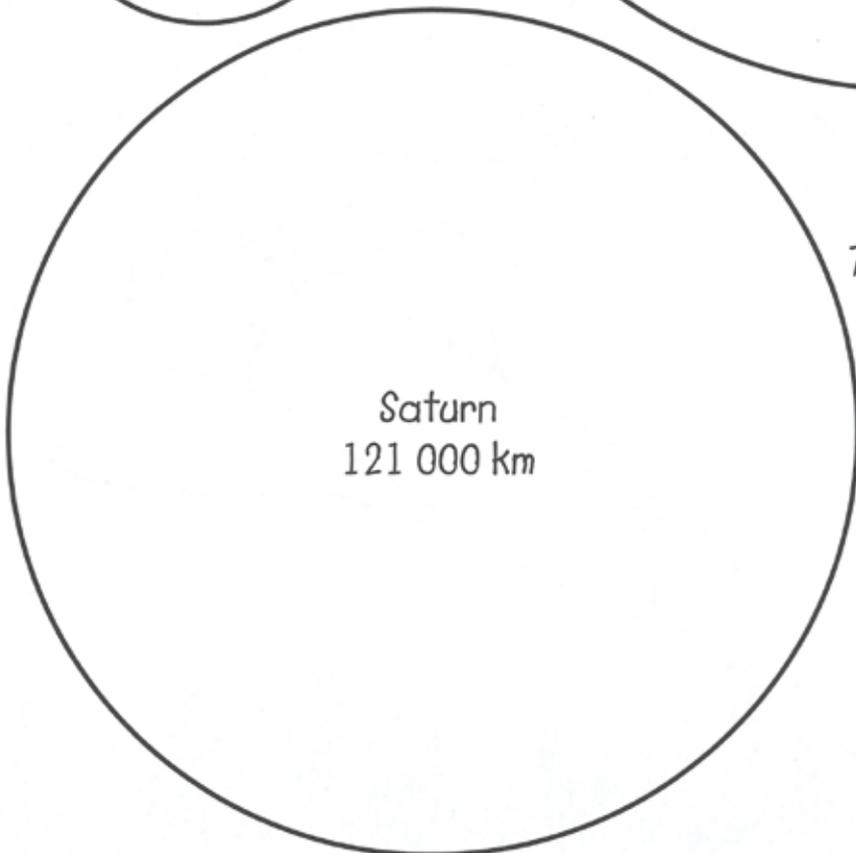

Colour in the planets and paste them in order, from the biggest to the smallest. Then can you hang them in the order that they orbit around the Sun?

Jupiter  
143 000 km

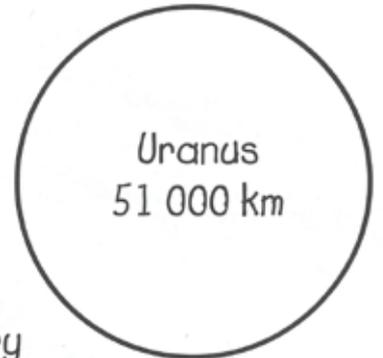

Neptune  
50 000 km

Saturn  
121 000 km

Mars  
7 000 km

Uranus  
51 000 km

Mercury  
5 000 km

Venus  
13 000 km

Earth  
13 000 km
