

Brown Paper Bag Memories

Dear parents/guardians,

In class we are talking about family memories.

A simple object, like a shell or a postcard, can help us remember places we've been or things that have happened.

Please help your child find a small object that will help them remember something special your family has done together.

This could be a trip somewhere, a special celebration, or an event you all took part in.

The object should fit into the attached brown paper bag.

Please have your child return the bag to school on

to share with the rest of the class.

It will be returned at a later time.

Kind regards,
