

Make Your Own Flashlight Mask!

What you need:

- 2 paper plates
- Glue, sticky tape or stapler
- Stanley knife
- Colouring pencils, textas or paint to decorate your mask
- Small flashlight

What to do:

- Turn one paper plate over and draw your face onto it.
- Using the knife, carefully cut out the eye holes.
- Decorate your face using the coloured pencils, textas or paint and allow to dry.
- Place the two plates together to make a bubble mask and glue, sticky tape or staple around the edge.
- Make sure you leave enough room for your torch to be inserted into the bottom of your mask.

If you can't think of a design, why not use one of the designs below to decorate your plate with!
