Make Your Own Chinese Paper Lanterns

Follow the instructions to make your own Chinese lantern to celebrate Chinese New Year.

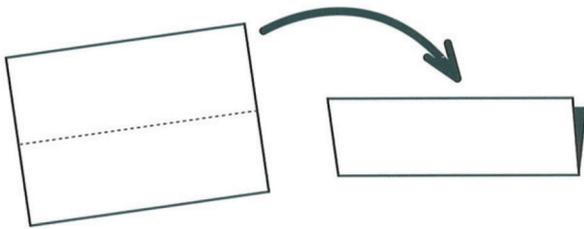

What you need

- coloured paper
- scissors
- glue, tape or stapler
- pipe-cleaners.

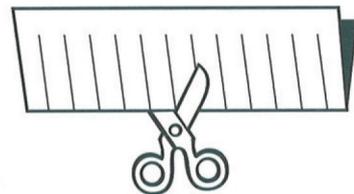

What to do

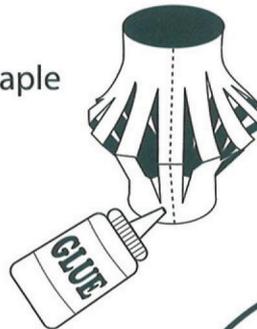

1. Fold a rectangular piece of paper in half (longways), making a long, thin rectangle.

2. Make a series of cuts (about 12) along the fold line. **Don't cut all the way to the edge of the paper.**

3. Unfold the paper. Glue, sticky-tape or staple the short edges of the paper together.

4. Cut another strip of paper about 15cm x 1cm. Stick or staple this strip across one end of the lantern—this will become the lantern's handle. You may also use pipe-cleaners to make the handles.
