

## Make a Rocket Balloon

### What you need:

- Long piece of string
- 2 chairs
- Drinking straw
- Long balloon
- Tape
- Strong peg

### What you do:

1. Thread the string through the straw.
2. Tie the string between the two chairs, pulling the string taut.
3. Blow up the balloon and seal the neck with the peg. Tape the straw to the balloon, as shown.
4. Slide the balloon and the straw back to one end of the string.
5. Remove the peg.

In your own words, explain what happens and why:
