

# Dino-Mite Sign Décor

## Supplies:

- 4' x 8' foam insulation board
- Utility knife
- Printer
- 8 ½" x 11" white printer paper
- Projector
- Pencil
- Spray adhesive
- Beige spray paint

## Directions:

1. Cut the 4' x 8' foam insulation board in half, creating two 4' x 4' boards. *(For safety purposes, we recommend wearing leather gloves when using the utility knife. Never leave the utility knife where children can pick it up.)*
2. Print the entrance sign template on pg. 3 onto 8 ½" x 11" white paper. *(Or connect laptop to a projector.)*
3. Project the entrance sign template onto one of the 4' x 4' boards and trace.

4. Cut out the boulder shape and carved letters with a utility knife. *(For safety purposes, we recommend wearing leather gloves when using the utility knife. Never leave the utility knife where children can pick it up.)*

5. Use the utility knife to shape the second board into a slightly larger boulder.

6. Glue both boards together with spray adhesive. Allow to dry.

7. Spray paint the inside of letters with tan paint. Then spray a mottled effect onto the rest of the boulder with tan paint.
