

Plant Décor

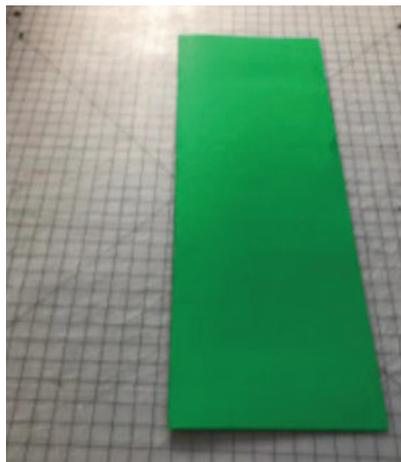

Supplies:

- Green poster board
- Wire
- Wire cutter
- Utility knife
- Floral foam
- Cardboard
- Brown craft paper
- Glue gun
- Cardboard

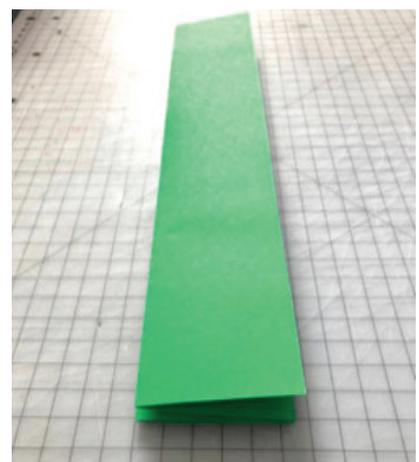

Directions:

1. Place down a sheet of green poster board vertically.

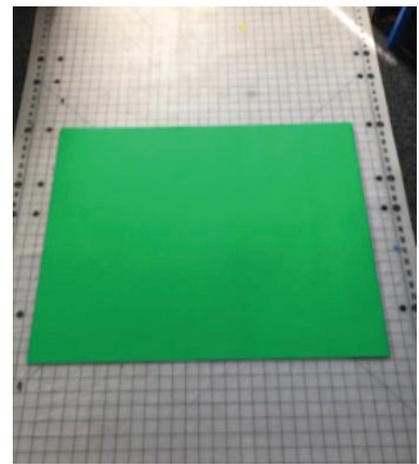

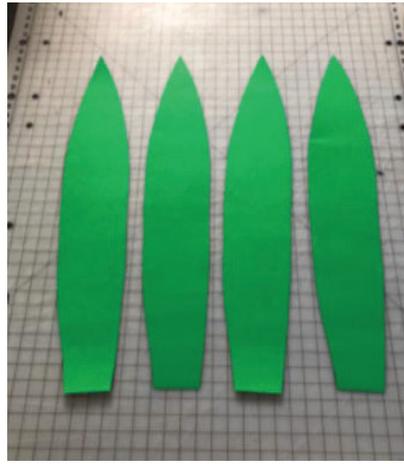

2. Fold in half vertically.

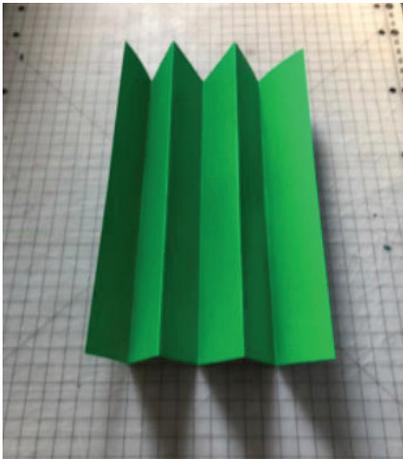

3. Fold those panels once more to get four panels.

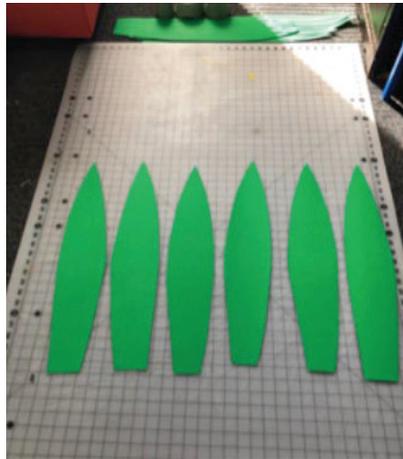

4. With a utility knife cut the folded poster board into a long leaf shape. (For safety purposes we recommend wearing leather gloves when using the utility knife. Never leave the utility knife where children can pick it up.) One vertical poster board will produce four large leaves.

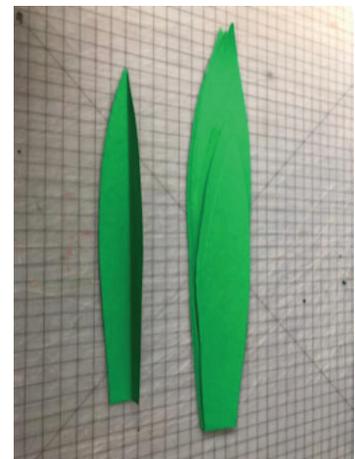

5. Place down a second sheet of green poster horizontally.

6. Accordion fold that poster board into six equal panels.

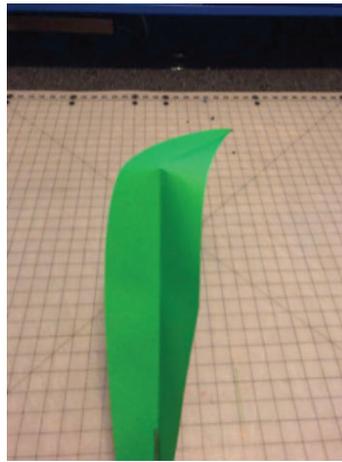

7. Repeat step 4 to produce six medium sized leaves.

8. Fold each leaf in half.

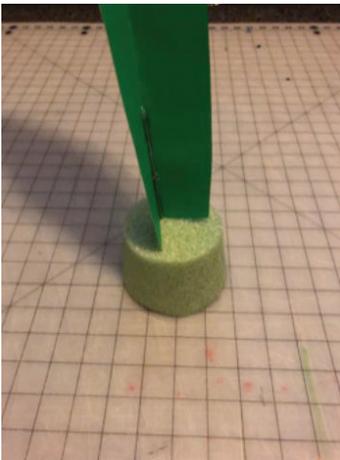

9. Cut a 6" length of sturdy wire and hot glue it to the bottom of each leaf along the crease, like shown.

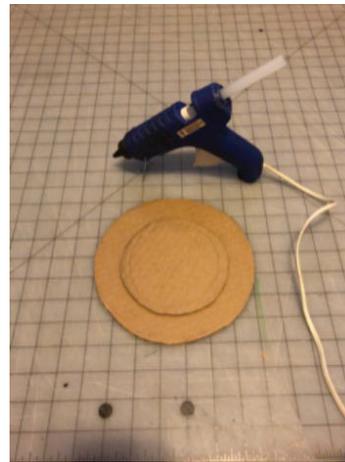

10. Fold the top of each leaf backwards, as shown.

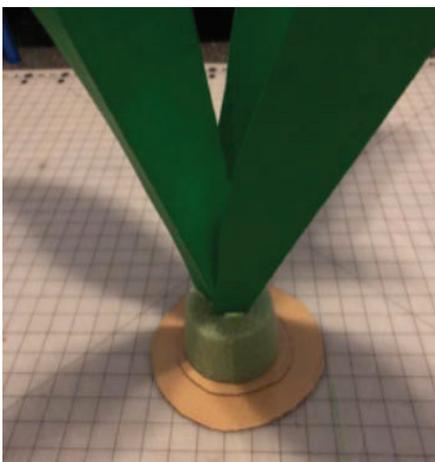

11. Curl the tip of the leaf.

12. Insert the wire end of the leaf into Floral foam. Continue inserting the leaves into the foam until it resembles the photo.

13. Cut out a large circular cardboard base with a utility knife. Cut out a second slightly smaller circle and hot glue it to the center of the larger circle, creating a thick sturdy base.

14. Hot glue the floral foam to the cardboard base. The leaves will now be able to stand balanced without tipping over.

15. Wrap the foam and cardboard base with brown craft paper and tape.
